

Capt. McKinery's Hospital Offer Accepted

Provided Building Will Not Cost More Than \$4,400.00
—Plans for Suitable Hospital Prepared.

The offer of Capt. McKinery to take up the bonds at 100, and put up the hospital within six weeks of the contract for two per cent above cost, was accepted by Council with certain provisos, Saturday, the only contrary vote being that of Coun. Flanagan, who did not enter the offer, thought it wise to wait and see if they could not do better on the market with the bonds. Capt. McKinery had made arrangements to dispose of the bonds at Berlin if the Council took up his proposition, and he will proceed to dispose of them forthwith.

The plans he will submit to Council call for a cottage hospital which can be used subsequently for a home of the sick with the development of the town, and two storeys with accommodation for from sixteen to twenty patients and all modern conveniences.

It will not cost more than \$4400, the amount specified by Council, he is ready to guarantee to erect it on a ten per cent basis.

The motion approved by Council was "That the offer of Capt. McKinery be accepted providing that a guarantee be given that the hospital can be erected for a sum not exceeding \$4400 that the plan be approved by a Committee of the Council which will provide inspection while the hospital is being erected, and also provided the C. P. L. donate the site."

This met with the approval of the majority of the Council, those voting for it being Messrs. Travis, Shook, Flanagan and Robinson, and Coun. Flanagan against.

The Committee appointed consisted of Messrs. Shook, Flanagan, Travis and Secretary Treasurer Bond.

The provision respecting the site was inserted as the C. P. L. although their promise has been given has not as yet been handed over the site which the block immediately north of the English church.

Dutch George Buys \$7,000 of Steers
While Dutch George was in the north country last week, securing the country for stores for the Dominion Day riding contest he ran about a bunch of half belonging to Tom Evans of Hutton which is known to rejoice in the sale of the lot.

George spent them in the head penitence penitence. "What will you take for a little of your beef," says he to Tom. Tom said a little cash might come in handy, so George bought a whole roast of beef, over a hundred head, for around \$7,000.

The consignment was shipped into town at the end of the week, but that didn't prevent George from remembering the steers. He shipped in some fine specimens.

Calgary Not In Haste to Oblige

May Still Dump Raw Sewage Into River For Year

"It will be several months before the city of Calgary will be in a position to discontinue the practice of dumping raw sewage in the Bow river as requested by the town of Bassano. The request was made on Monday at the meeting of the city council, the secretary-treasurer of the corporation pointing out that Bassano is about to commence the installation of a waterworks system, the water for which will be taken from the Bow river."

City Engineer O'Neil said today that Calgary was doing everything in its power to hasten the work of connecting up all the different sewage lines with the trunk sewer, and in about 30 days more this will be finished. The trunk sewer will empty into the sewage disposal plant when the latter is built, but until then Calgary cannot very well avoid emptying sewage into the river. The plan for the sewage disposal plant was approved last year, and when the city is ready specifications will be prepared by the city engineer and tenders called for the construction of the sewage disposal plant. It is expected that this will be done within the next 12 months, but the disposal with which is carried out will depend to a very large extent upon question of city finance. The sooner this money can be secured the quicker the work will be completed. — Calgary News Telegram.

Whole Block of Hampton Park Sold

Block 16, Hampton Park was sold last week by R. A. Travis to Messrs. Brown and R. M. Hays civil engineers of Calgary.

This regular sub-division lying to the immediate northwest of the town is of considerable growth is responsible for numerous enquiries, and it is stated that arrangements are almost complete for an English farm taking over another block.

"I'm an old settler and that there will shortly be a movement to Bassano property," Mr. Travis said to the News this week. "It is a favorable thought of all over, and when the railroad situation is thoroughly understood I am certain Bassano will come to its own."

Mr. W. Laurie late accountant of the Union Bank, was in town from Winnipeg this week prior to spending the holiday at Banff.

July First Celebration Was Glorious Success

Should be Made Annual Event—Entertainment Provided and Smoothness of Proceedings Amazed Everyone—The Day Was Ideal.

Bassano's first celebration completely vindicated the faith and forecasts of the promoters, surprised citizens and visitors, and made a convincing argument for the creation of an annual July First event. Regarded from every standpoint, it was an uncompromising success. The weatherman smiled his best, giving sunshine with a cooling breeze that spelt annihilation to mosquitoes; sports and band were of the best, while the dance drew to the Berkeley the biggest crowd Bassano has ever seen.

Only superlative epithets can adequately describe the success of the affair. While committees put their heart and soul into their work and achieved great things, yet above all the responsible for the splendid result was Mr. J. T. Gray, the well known managing director, to whom all credit is due. Appreciation of his services is finding vent in his spontaneous movement to present him with some little memento of the occasion. Without Gray, the affair could not have run so smoothly. He was the guiding spirit, the one who drew and held the crowd, and managed each with equal success.

True, he had hearty energetic and co-operative cooperation from committees and committees. To them too the due credit of congratulation is due. No one shared the responsibility laid down for them by the central committee, and in this manner the splendid results, that all everyone with hope that the sports will become part of the regular routine life of Bassano, were achieved.

From the time of the parade in the early morning to the conclusion of the dance in the early following morning, no high crowd, a surprise to everyone with knowledge of the length and variety of the program.

The aim of the affair was to give every one a good time. Not one failure was reported. The children's committee spared no effort to make the most of their part, and they succeeded so well that perhaps the children more than any other time did not fall over per week, from the time that the sports that children have seen almost all their little minds were entered in. For those who were too young to enter, many were provided in glorious quantities, and there in many adults who say their child pleasure was derived exclusively from this department.

The parade was a marvel of quality. While quality was not in complete harmony with exhibitors there, were more good. Instances the valuable Chas. of Bassano, the automobile owned by J. Frank Davis, jockey in a beautiful and beautiful man of rows, and inhabited entirely by pink habited ladies, including the chauffeur. When it began to vie in the early morning of the parade was about to start, the school children came about in the various floats, not up to expectations. Little wonder it was awarded first prize. Mrs. Crane was at the wheel of the Fairy Oct, and occupy it were Mrs. J. Frank Davis, Mrs. J. S.

THURSDAY, JULY 2ND, 1915

An Annual Event

July First has come and gone, and the Bassano sports are a pleasant memory.

Committee, citizens and visitors, not forgetting the weather, and indeed everything and everyone concerned are to be warmly congratulated on the success of the affair. It exceeded in excellence the most sanguine expectations. The sports could not have been better, the children were in high glee for the committee in charge spared no efforts to bring joy into their hearts, the horse racing was genuine and exciting, the bucking was no tame affair, the Band was the best Calgary could produce, the weather was everything that could be desired, plenty of sun, a cool breeze and mosquitoes nil, while the whole thing was capped by a dance at which everyone was fully given their money's worth.

The thanks of the citizens are due to many, to the weather, to the energies and accomplishments of Mr. Gray, than whom no better manager could have been found, to the committee who threw themselves so wholeheartedly into the arrangements, to the citizens lending help and tears and automobiles in carrying out those arrangements, to the visitors who made Bassano their headquarters for the day.

Summing up—it was a good start and should be made an annual event.

Money Saving Suggestion

THE resource of Secretary-Treasurer Bond succeeding in saving about a hundred dollars for the town last week. Instead of following the usual formula of advertising the sale of town debentures in the various financial journals, which last year on one bylaw alone cost a hundred dollars, Mr. Bond suggest-

ed that forms be sent out to leading brokers describing the issue, the population, location and general advantages possessed by the town, which is good advertising and much more effective and economical than the old way.

Furthermore he inserted a clause that should reap fourfold in the future. It is this: "As the Council contemplates issuing approximately \$60,000 six per cent, 30 year debentures in about two months time for Waterworks extensions, and incinerator (\$60,000 of which will be Local Improvement debentures) bidders are requested to state in their bids whether they are prepared to purchase this additional amount at the same price as their bid on the present issue."

A commendable forethought is shown therein.

Calgary's Cold Comfort

BASSANO derived cold consolation from Calgary in respect of the depositing of raw sewage in the Bow river.

"Splendid forethought," says the Albertan in effect, "Good boy Bassano," says the New Telegram also so in effect, "We'll stop dumping our sewage in a few months."

But we cannot get away from the facts as presented by the City Engineer of Calgary who promises that it will be twelve months before the disposal works will be in such working order as to take care of all the Calgary sewage.

The situation is obviously a hard one but it is naturally up to each town to look after itself. And Bassano should do everything in its power to prevent the pollution of the stream to the danger of the health of the citizens. The Provincial Health Department should be constantly kept in mind of conditions.

Comment.

Calgary created a new record last week opened the Fair, and it wasn't raining.

It was Gray's day, Tuesday.

The movement to give B. T. Gray a little memento of the first Bassano celebration so successfully concluded should receive the hearty co-operation of everyone. The committee all worked hard, but Gray was the right man in the right place.
